KUEHNE+NAGEL

Service

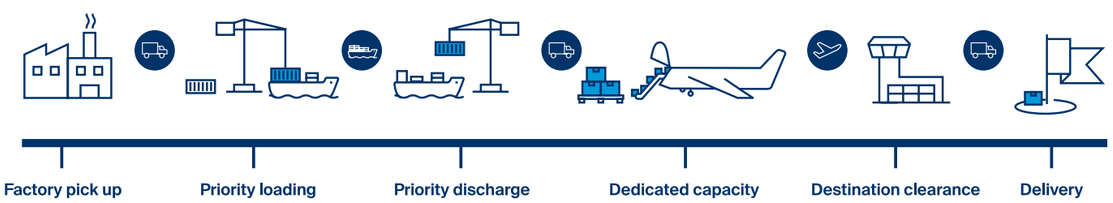
Sea-Air

Save time, reduce costs and minimise the carbon footprint of your shipments by combining the best features of air and sea.

Sea-Air

Nowadays, supply chains are increasingly vulnerable to disruption. To succeed, you need a flexible, reliable and affordable way to reach your customers. There is also a growing demand for low-carbon logistics, making sustainability a key differentiator.

Sea-Air flow: priority handling and up to 50% less CO_2 emissions



Why choose if you can smartly combine?

Sea-Air is the ideal way to combine the benefit of a quick time-to-market with reduced costs. At Kuehne+Nagel, our logistics specialists provide affordable, fast and reliable transportation for your business. Predictive analytics ensure that your shipments are seamlessly synchronised so that your promises are kept and deadlines met.

Every shipment is important – for you and for us. Our specialists will ensure that you receive the full benefits of this combination of transport modes. We offer the right combination of Sea-Air transport through various transit hubs worldwide, giving each shipment door-to-door attention through our globally standardised processes.

The benefits of different modes

Reduce both your transit times and costs with a smart combination of transport modes from the trusted industry leader.

Face challenges confidently

Sea-Air enhances the resilience of your supply chain, helping you to avoid the impacts of disruption.

Seamless cargo movement

To keep your shipments in constant progress, we synchronise all sea freight arrivals with dedicated air uplift capacities.

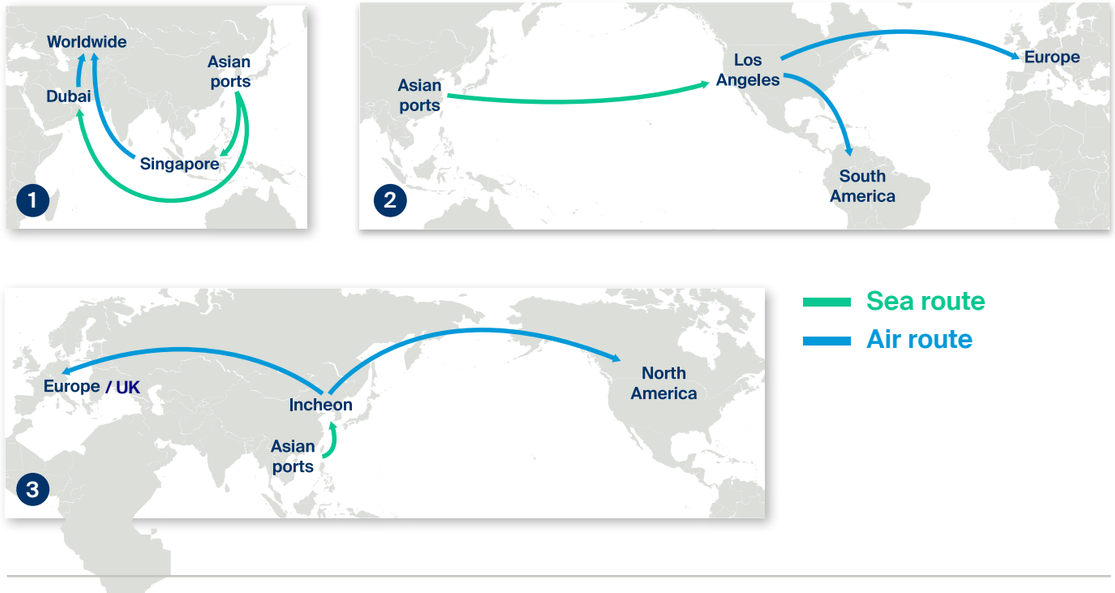
Visibility and monitoring

Be aware of where your shipments are via our proactive tracking and monitoring system to react to changes of plan.

Environmentally friendly transportation

Achieve your environmental goals by actively reducing carbon emissions.

Routings:



1. From Asian ports via Dubai/Singapore to worldwide destinations
2. From Asian ports, via Los Angeles to Europe or South America
3. From Asian ports via Incheon to North America or Europe
